RE: Onsite Observations: Home Renovation Framing installation
Address: 5720 Reed St.
J2.26 Project #: 21177
Inspection Date: 11/15/22

William,

This letter is to confirm all framing regarding the addition on the southwest corner of the home meets or exceeds the project requirements as shown in the construction/repair documents. Note, vertical straps at the corner were modified due to product availability. The provided straps are acceptable as installed.

Final observations were made by me, or by someone under my direct supervision.

Please feel free to contact me if you have any additional questions about this report.

Regards,

A handwritten signature in blue ink, appearing to read "Dan Canda", written over a horizontal line.
