City of Arvada,
Ms. Angela Vinson
4350 S. Monaco St.
Denver CO 80237

Dear Ms. Vinson

Fruitdale Sanitation District has been requested by the City to verify that the sanitary service connection to the District main at 5392 Quail Way. Haskins Station Project has been constructed in accordance with District standards. The District finds the tap connection to the District Main, to substantially meet the District standards based on observation of the installation of the connections. Please be aware that the ownership of the sanitary service extending from the buildings is private and that the District has no ownership or maintenance responsibility of the service from within the building extending out to the specific connection at the main. The private owners and/or their association are completely responsible for all maintenance, repair and replacement of service piping, structures, etc., and for the connection to the District main within Quail Way.

If there are any questions, please feel free to contact the District Offices.

Sincerely,

Robert Cox
District Manager
